SUMMARY

Software Development enthusiast skilled in problem-solving, React, HTML, CSS, JavaScript, Java, and Spring Boot, with experience building full-stack applications through academic and personal projects. Strong understanding of backend APIs and scalable system design. Seeking an entry-level SDE or internship role to apply technical skills and grow in a collaborative engineering environment.

EDUCATION

Sipna College of Engineering and Technology

B.E (Pursuing) - Computer Science and Engineering, SGPA: 8.6

2024 – 2027

Amravati, Maharashtra

Government Polytechnic

Diploma - Computer Engineering, Percentage: 84.16%

2021 – 2024

Amravati, Maharashtra

EXPERIENCE

Skolliq – Software Developer Intern

Backend Development & UI Design

Aug 2025 – Oct 2025

Remote

- Developed backend logic and database tables for a school event management system.
- Built APIs to manage sports and cultural events using structured database design.
- Designed user-friendly event interface prototypes using Figma.

TECHNICAL SKILLS

Languages: Java, C, C++, JavaScript, SQL, Python

Developer Tools: VS Code, GitHub, ChatGPT

Technologies/Frameworks: ReactJS, Django (Basic), MySQL, Spring Boot

PROJECTS

Online Voting System [🔗](#) | HTML, CSS, Django, Python, MySQL

03/2024 – 06/2024

- Developed a secure online voting platform with Admin and Voter modules.
- Implemented blockchain-based vote storage for transparency and integrity.
- Admins manage elections/candidates; voters cast secure digital votes.

HomeChef AI [🔗](#) | React, Spring Boot, MySQL

02/2026-02/2026

- Built a full-stack AI application that generates recipes, detects ingredients from images, and provides smart grocery recommendations..
- Implemented personalized gym meal planning with multilingual recipe support (English, Hindi, Marathi).

Quiz Project [🔗](#) | Spring Boot, React, PostgreSQL

11/2025-11/2025

- AI-QuizApp is an interactive online quiz platform designed for educational purposes.
- it allows Admins to generate quizzes automatically from any paragraph or topic using the Gemini API
- while Students can attempt quizzes using unique test codes, receive instant results, and track their performance history.

CERTIFICATIONS

• CoreJava

• IndustrialTraininginIoT

• GenerativeAI

ACHIEVEMENTS

- 2nd Prize – Techno Vision 2K24, Sipna College Project Competition [🔗](#)
- 2nd Prize – Devthon Competition, College Project Competition [🔗](#)
